E-COMMERCE SOLUTION

Prime Web Solutions is well placed to provide e-commerce consultancy and development services.

We combine web design and marketing skills with years of experience in developing financial, commercial and back office systems.

Our portfolio includes payment systems, trading systems, auctions and of course online catalogues and shopping.

This bespoke solution will enable your business to fully trade online via your website with complete confidence and security. The overall solution will depend entirely on your individual requirements.

Listed below are a number of the available features which make up this bespoke e-commerce solution:

• Total freedom of design
• Fully dynamic self updateable website content
• Unlimited multilingual capabilities
• Unlimited multi currency options
• Unlimited product catalogue
• Dynamic shopping basket
• Special offers and promotions
• 3D product modelling
• Affiliate and partner solutions
• Audio assisted navigation
• Existing system integration
• Merchant account integration
• Online administration panel
• Secure Hosting
